## Experience

### Destek Infosolutions Pvt Ltd

#### Intern – Software Development

06/2023 – 12/2023

Pune, Maharashtra, India

- Successfully contributed to the development and deployment of 4 live Angular projects, 1 React project.
- Actively engaged in client meetings for a major project to understand and meet client requirements.
- Gained extensive exposure to agile methodologies, including SCRUM. Participated in sprint planning, and daily stand-ups, contributing to efficient project management and team collaboration.
- Collaborated closely with cross-functional teams, including designers, engineers and product managers, to deliver high-quality project.
- Independently developed a CI/CD pipeline for a PHP website using Jenkins.

### Ryazio Technologies LLP

#### Internship Trainee

07/2022 – 08/2022

Pune, Maharashtra, India

- Underwent comprehensive training in NodeJs and MongoDB, acquiring essential skills in back-end technologies and database management. Designed and developed an innovative Discord bot to streamline the transaction of reward coupons among employees.
- The bot also served as an automated system for storing and managing information about newly hired interns, showcasing the ability to create practical and user-friendly software solutions.
- Participated in all stages of the software development lifecycle, including requirements analysis and system design.
- Collaborated with senior developers and project managers, gaining insights into professional software development processes and workplace dynamics.
